

LAYING THE GROUND RULES

QUALITY, SERVICE, SUPPORT

Choose Polyguard and you will not only obtain a quality product but with it, all of the service and support you have come to expect from Polypipe.

During development Polyguard has been subjected to rigorous testing to ensure optimum performance in the most exacting environments. The product conforms with various third party accreditations including:

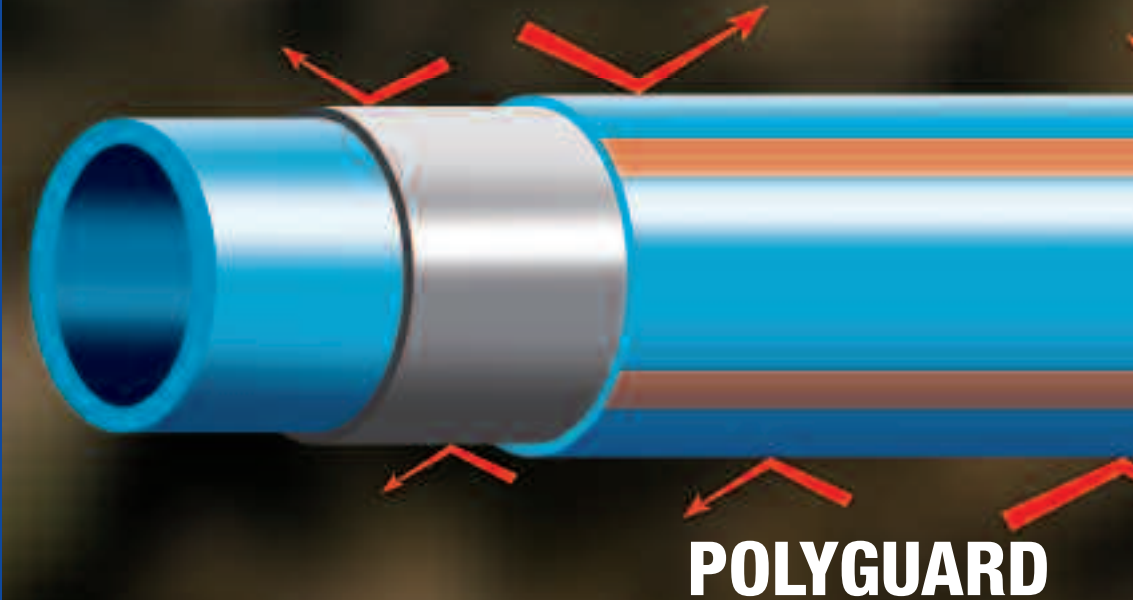

- Type A: WIS 4-32-19: Polyethylene pressure pipe systems with an aluminium barrier layer for potable water supply in contaminated land
- Complies with BS6920 Water Quality Testing
- Approved under regulation 31 of the Water Supply (Water Quality) Regulations 2000

For customer service support or technical advice call **01709 770000** or visit www.polypipe.com

Polyguard Range

Component	Product Code	Size	Description
	PGP2550	25mm	Polyguard pipe x 50m coil
	PGP3250	32mm	Polyguard pipe x 50m coil
	PGP636	63mm	Polyguard pipe x 6m length
	PGP6325	63mm	Polyguard pipe x 25m coil
	PGP6350	63mm	Polyguard pipe x 50m coil
	PGF25SC	25mm	Polyguard straight coupling
	PGF32SC	32mm	Polyguard straight coupling
	PGF63SC	63mm	Polyguard straight coupling
	PGF25MTC	25mm	Polyguard x 3/4" MBSP coupling
	PGF32MTC	32mm	Polyguard x 1" MBSP coupling
	PGF63MTC	63mm	Polyguard x 2" MBSP coupling
	PGF25FTC	25mm	Polyguard x 3/4" FBSP coupling
	PGF32FTC	32mm	Polyguard x 1" FBSP coupling
	PGF63FTC	63mm	Polyguard x 2" FBSP coupling
	PGF2590E	25mm	Polyguard 90 deg elbow
	PGF3290E	32mm	Polyguard 90 deg elbow
	PGF6390E	63mm	Polyguard 90 deg elbow
	PGF6345E	63mm	Polyguard 45 deg elbow
	PGF25T	25mm	Polyguard equal tee
	PGF32T	32mm	Polyguard equal tee
	PGF63T	63mm	Polyguard equal tee
	PGF2515TC	25mm x 15mm	Polyguard to copper transition coupling
	PGF2522TC	25mm x 22mm	Polyguard to copper transition coupling
	PGF2525TC	25mm x 25mm	Polyguard to PE transition coupling
	PGF3232TC	32mm x 32mm	Polyguard to PE transition coupling
	PGF6363TC	63mm x 63mm	Polyguard to PE transition coupling

GUARD DRINKING WATER AGAINST CONTAMINANTS IN BROWN FIELD SITES

POLYGUARD

FROM A BRAND YOU KNOW AND TRUST

**AVAILABLE THROUGH A PIPELINE
OF MERCHANTS NATIONWIDE**

THE PERFECT GUARD FOR DRINKING WATER IN CONTAMINATED LAND

Polyguard is a new barrier pipe solution designed to ensure the safe delivery of drinking water through redeveloped sites that may have been contaminated by previous industrial use. As its name suggests, Polyguard guards essential drinking water against a wide range of potential contaminants, including organic, inorganic, corrosive and toxic elements.

Manufactured by Polypipe – the UK market leader for above and below ground drainage, plumbing and water management systems – the Polyguard system offers a comprehensive range of both pipe and brassware fittings providing a complete potable water supply solution.

Polyguard pipe is constructed from 2 layers of Polypipe's proven flexible polyethylene adhered to a layer of aluminium, providing an impermeable barrier to the ingress of contaminants. The inner layer of polyethylene carries the water and the outer layer provides protection for the aluminium layer from damage. Brown stripes on the outer layer ensure installed pipework is easily identified.

The Polyguard range is completed by an extensive selection of specialist fittings, each incorporating a special insert designed to ensure a perfect seal. Tees, elbows, and both standard and transition couplings are available for use with each of the three Polyguard pipe sizes: 25, 32 and 63mm.

25 & 32mm pipe is available in 50m coils whilst 63mm is available in 25m, 50m coils & 6m straight lengths.

KEY BENEFITS

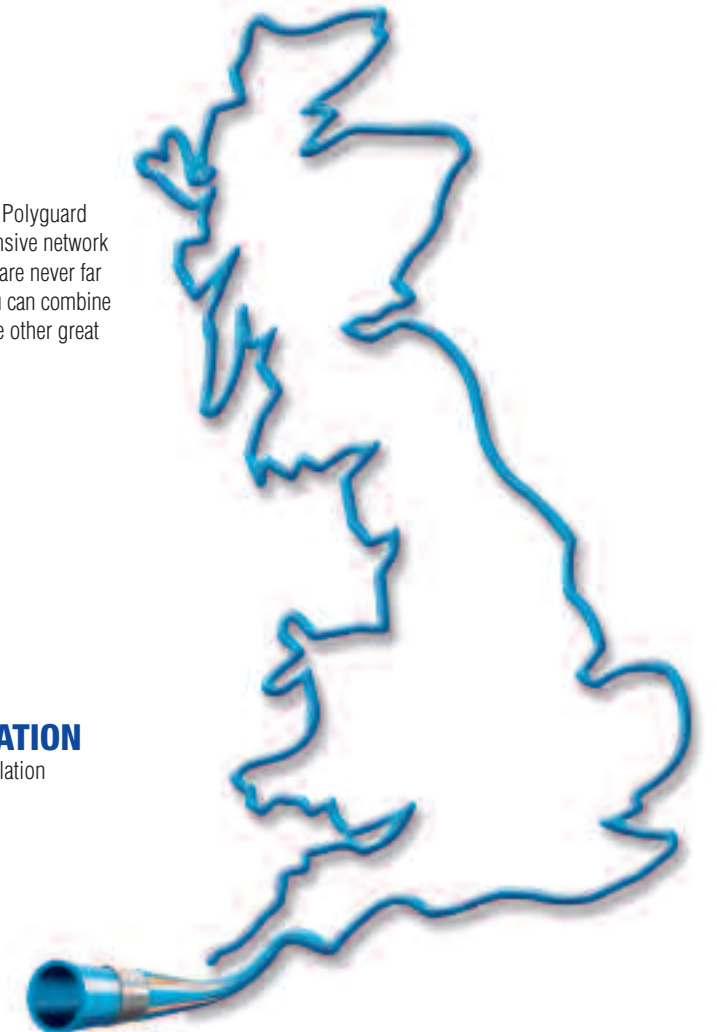

- A cost effective, time saving alternative to traditional materials
- All the benefits of a plastic pipe system; high corrosion resistance, lightweight and flexible, coupled with a protective impenetrable aluminium barrier
- Increased on site resistance to damage and theft from a robust product with no scrap value
- A complete system of pipe and fittings providing a complete potable water supply solution
- Available in 25mm, 32mm and 63mm sizes
- A wide product range of brassware tees, elbows, standard and transition couplings and 50m pipe coils (63mm available in 25m Coil and 6m length)
- Approved under regulation 31 of the Water Supply (Water Quality) Regulations 2000
- Conforms with Type A: WIS 4-32-19: Polyethylene pressure pipe systems with an aluminium barrier layer for potable water supply in contaminated land

Brought to you by Polypipe, the Polyguard range is available from our extensive network of merchants. This ensures you are never far away from a stockist and that you can combine Polyguard purchases with all the other great products in the Polypipe range.
